clearances

25X1 5. [] LIAISON Per [] request I
forwarded to Mary Brooks, in the office of Representative Morris K.
25X1 Udall (D., Ariz.), one copy of the letter that was sent to []
[] on 22 November 1977 as a result of an FOIA
request.

25X1 6. [] LIAISON Mr. John Luke, GAO, called
to request the status of certain inventories which the Agency had promised
25X1 to prepare relating to our unclassified data information systems. I checked
with [] of the Agency Library, and then advised Mr. Luke that
the inventories should be forwarded to him by the end of the month.

25X1 7. [] LIAISON In response to a request from
25X1 Don Sanders, of the Senate Select Committee on Intelligence staff, late
yesterday afternoon [] OS, conducted a physical security review
of Room 17 in the basement of the Russell Senate Office Building. Sanders,
working under the direction of the Chairman of the Senate Select Committee
on Ethics, had to move from his previous quarters in S-405, The Capitol.
Sanders called later in the day to request that a courier stop by Room 17
on Monday to pick up a letter from him relating to the security review situation.

25X1 8. [] LIAISON Donald Fortier, of the House
International Relations Committee staff, was given a security indoctrination
for compartmented clearances by [] OS. Fortier then visited
25X1 [] NFAC, for another briefing.

25X1 9. [] LIAISON Called Karen Lissakers, Staff
Director, of the Senate Foreign Relations Subcommittee on Foreign Economic
Policy, to respond to a letter from Chairman Frank Church (D., Idaho) requesting
a copy of the new analysis by the Agency on Saudi oil policy. This analysis
was reported in a Washington Post article on 5 February. Having consulted
25X1 with [] NFAC/CSS, and with [], I advised her that the
Post article was an error and that there was no new Agency analysis. I
told her that a study is being done and when it is completed the Agency would
be able to make the information available to the Committee. She readily
accepted this explanation and asked whether she could receive a personal
briefing on the Saudi oil situation in general. [] indicated that such
a briefing could be provided and arrangements will be made with Ms. Lissakers
for an early briefing.
